Clinical Development and Just Like Home TAKE CARE of clinical trials and patients respectively.

CD guarantees high quality standard in clinical trial management, contributing to move projects from basic research to clinical research, providing end to end operational management of clinical studies and ensuring they are executed in compliance with clinical trial governance and regulatory requirements. JLH supports families and patients along their gene therapy pathway, offering a personalized organizational, logistics, administrative, emotional, cultural support.

Both collaborates with the clinical teams and all move aligned and committed to offer high specialized treatment and personalized care to patients and families.

Sviluppo clinico e 'Come a casa' – un supporto di alta qualità per le sperimentazioni cliniche e per i pazienti

Malattie Genetiche
