^[1]IRDiRC Scientific Secretariat, Inserm ~ Paris ~ France, ^[2]Sanford Health ~ Sioux Falls, South Dakota ~ United States of America, ^[3]Fondazione Telethon ~ Milano ~ Italy

The International Rare Diseases Research Consortium (IRDiRC) unites national and international governmental and non-profit funding bodies, companies (including pharmaceutical and biotech enterprises), umbrella patient advocacy organizations, and scientific researchers to promote international collaboration and advance rare diseases research worldwide. Importantly, the coverage of the Consortium is global and involves stakeholders from Africa, Asia, Australia, North America, and Europe.

OUR VISION

Enable all people living with a rare disease to receive an accurate diagnosis, care, and available therapy within one year of coming to medical attention.
